

**Certificate in Dementia Care (Levels 2 and 3) QCF**  
**Award in Awareness of Dementia (Levels 2 and 3) QCF**

Currently 700,000 people in the UK have dementia and this figure is expected to double over the next few decades. These qualifications will help to improve health and care services supporting individuals diagnosed with dementia.

**Award in the Prevention and Control of Infection**  
**Level 2**

Health workers or social care workers - whether in the community, care home or in a hospital - need a thorough understanding of how infections spread and how they can stop them.

Contact Dorte Chandler at **OXCARE** to find out how these qualifications can update your, or your staff's, CPD:
