

A service to help **SAVE** your business £'s

Does your company spend up to £50,000 per year on electricity, gas, other fuels, including transport fuel, costs?

Then your business can have:

- a free site energy review by a qualified engineer
- a report with costed priority actions for your business

Then your company can take up the offer of a FREE review of your energy use and be given advice on how to save money and reduce the Climate Change impact of your operations.

If your business is wasting energy it is causing avoidable pollution. But wasting energy also reduces your profitability. For every £1 saved on energy costs, most UK businesses would have to make £10 worth of sales to make the same £1 of profit. Wasting £1,000 a year would thus need £10,000 worth of sales to make that much profit.

20 FREE reviews are available up until 31st March 2008, so early booking is advised. To reserve yours, complete and fax back the booking form overleaf.

In partnership with:

Apply now for your business FREE Energy Review

Please complete and fax back to: 01580 201129
To book by e-mail send your details to mlynn@quarry-house.co.uk
