

SITE WASTE MANAGEMENT PLANS ARE NOW LAW

Site Waste Management Plan Training for Construction

On April 6th 2008 SWMPs became legal. These are new responsibilities for clients, designers and principal contractors – for all construction projects over £300,000.

A Site Waste Management Plan (SWMP) details the amounts and types of wastes that will be produced on site and how they will be reused, recycled or disposed of.

Our training programmes and consultancy has been developed to assist you to quickly and easily implement effective and efficient SWMPs.

SWMP Training Programme

We offer modules of training that provide support, strategies and tools to help you.

Module 1 – SWMP Awareness Seminar

Our half-day core programme will provide you with a basic understanding:

- What is a SWMP?
- How will they add value?
- How to write a simple SWMP
- Practical exercises and case studies

Module 2 – The Integrated Approach

Half-day and builds onto Module 1, with an increased level of practical application:

- Techniques for waste reduction
- Complex SWMP exercise
- Options for site good practice and cost savings

These modules are delivered in-house for clients, contractors, and their supply chains.

Dates

Monday, 21st July 2008 – Didcot, Oxfordshire

Tuesday, 22nd July 2008 – Sevenoaks, Kent

Costs

£245 + VAT to include manual and refreshments. The course runs from 9.30 am to 4.30 pm. The course is also available in-house for £1,100 + VAT.

Other Training and Consultancy

- Environmental awareness for construction – NCFE certificated courses available.
- Lean construction - improving service and reducing costs.
- Sustainability for construction
- ISO 14001 for construction companies
