The Oxford Strategic Partnership (OSP) brings together key people from the health service, the police, businesses and voluntary and charitable organisations with the City and County Councils.

The Partnership's aim is to agree on the needs and challenges facing the city and how to work together to meet those challenges. The common objective is to make Oxford a world class city for all its citizens.

The Partnership's priorities are:

- ◆ Strengthening the local economy
- ◆ Tackling the need for more affordable housing
- ◆ Improving health and social well-being
