Policy and strategy			
4.	Horizon Scanning	<p>The Partnership considered a report (OP4) which set out the current policy issues and drivers affecting partnership working locally and nationally.</p> <p>A presentation was given by Councillor Keith Mitchell, Chairman, setting out the Financial outlook, areas to focus on following the Comprehensive Performance Assessment and the National Political Direction.</p> <p>He urged the board to think about opportunities to strengthen the Partnership and whether the drivers were working locally and nationally.</p> <p>The Board thanked Councillor Mitchell for his presentation and AGREED to hold the debate under the next item on the Agenda.</p>	
5.	Oxfordshire 2030 Delivery Plan	<p>The Oxfordshire Partnership had agreed at its last meeting that the delivery plan should be refreshed.</p> <p>The Board was asked to:-</p> <ul style="list-style-type: none"> • agree a key list of issues for consideration through the process • Invite thematic partnerships to develop proposals for consideration at the Partnership meeting in July • Invite the county-wide Chief Executives Group and the LAA Steering Group to oversee and steer the process. <p>Stephen Capaldi reported that the Plan should be refreshed to reflect progress over the last two years and changing circumstances, particularly the economic climate and new priorities.</p> <p>Work was underway with partnership leads to review delivery activity to fulfil Oxfordshire 2030's commitment. Work was underway with thematic partnerships to review:</p> <ul style="list-style-type: none"> • whether existing LAA targets remained priorities and if so what new targets needed to be defined; 	

		<ul style="list-style-type: none">• Clarify and sharpen the focus of the shorter and longer term actions within the delivery plan;• Review targets that were 'business as usual' and could be excluded from the delivery plan. <p>To aid debate, officers suggested that a limited number of 'big issues' were considered. The following list was put forward for consideration:</p> <ul style="list-style-type: none">• Breaking the cycle of deprivation• Anti-Social Behaviour• NEETs• Climate Change• Congestion• Others? <p>Officers had asked the thematic partnerships to look at priorities - stressing the point that if the partnership was to make real progress it needed to use scarce resources carefully which suggested that ultimately the partnership would need to settle on a small list of medium term priorities which were widely supported and owned.</p> <p>There then followed a lengthy debate on the above issues. The key points arising from the debate are as follows:</p> <ul style="list-style-type: none">• At present, themes were either cross-cutting or subject based.- need to make sure that targets delivered the outcomes we want - should not lose sight of local targets;• Anti-Social behaviour and fear of crime needs to be on the list of priorities – list has to be risk based;• For older people need to shift to prevention and look after carers;• Would like to see priority widened to raising people's aspirations to look at whole spectrum;• Need to look at priorities in terms of delivery – the voluntary sector are very effective in delivering preventative work – invaluable at supporting carers – need to boost the voluntary sector to enable it to deliver against the priorities;• When refreshing the priorities – could the

		<p>partnership look again at addressing the needs of the BME community?;</p> <ul style="list-style-type: none"> • should not lose sight of affordable housing – fundamental to all priorities the partnership are looking at • need to look at positive statements about aspirations – need to remember drivers. • need to remember the Oxfordshire is a very rural County with rural communities – whatever the priorities a proper understanding of the impact on rural communities needs to be understood; • demographic issues and affordable housing • vibrant rural economy – broadband • we should ask thematic partnerships to come together to consider cross-cutting drivers; • congestion – rural transport issues and concessionary bus passes should be added to this priority • Economic growth and technology • Alcohol consumption should be part of NEETs, • Domestic violence should be added to the list. <p>Following the debate, the Partnership Board AGREED the recommendations set out above,</p>	<p>Stephen Capaldi/ Claire Evans</p>
<p>6.</p>	<p>Presentation from Oxfordshire Stronger Communities Alliance (OSCA): ‘Valuing and Inspiring Volunteering in Oxfordshire’</p>	<p>The Partnership board received a presentation (attached) by Alison Baxter and Lindsey Watts from the Oxfordshire Stronger Communities Alliance (OSCA) outlining what the Oxfordshire volunteer centres were achieving as part of the OSCA business plan 2008-2011 and the LAA volunteering target N16; and the role of the Oxfordshire Partnership in developing a broader vision of volunteering in Oxfordshire, including:</p> <ul style="list-style-type: none"> - meeting the standards of the Code of practice volunteering (Compact) - supporting campaigns to promote volunteering (e.g. trusteeship) - promoting volunteering as added value to your organisation - leading by example and champion volunteering. 	

		<p>The Partnership thanked Alison and Lindsey for their presentation and AGREED to:</p> <p>(a) go back to their organisations and talk to colleagues about how they value and contribute to developing volunteering in the County;</p> <p>(b) to contact OSCA should they wish a presentation to be given in their own organisations.</p>	All to note
