

Comments received from the public about the Childcare Market Assessment

Parent 20.03.08

He and his family have just moved to the county and the secondary school that the LA have recommended that they send his disabled 12 year old son, does not have an after school club. This is a real problem as it means that he will need to try to arrange some other care, or finish work early. His son had attended an after school club where they had previously lived.
