ANNEX 4

Waste Management – Financial Principles

Waste Management Costs

INTRODUCTION

1. The Partner Authorities have agreed the principles and arrangements set out in this Annex.
2. The Partner Authorities agree that the more detailed work needed to enable the principles and arrangements to be implemented will be completed by the 28 February 2007.

PRINCIPLES

3. These arrangements only apply to household waste.
4. Outside of what is proposed and agreed each Authority will remain responsible for its own waste management costs, according to its statutory responsibilities.
5. The key objectives of the new financial regime are:
 - (a) to promote waste reduction and reuse as well as recycling
 - (b) equity, with each Authority responsible for the financial consequences of its performance
 - (c) to enable Oxfordshire to avoid paying LATS penalties
 - (d) to avoid perverse incentives (those that encourage behaviour contrary to the Oxfordshire Waste Strategy)
 - (e) simplicity
6. All waste analyses, including any baselines required, will be undertaken by an independent third party. OWP will provide oversight and scrutiny.

REVENUE – ARRANGEMENTS TO 31 MARCH 2009

7. Recycling credits will continue to be paid until 31 March 2009.
8. Payments will reflect changes in regulations, specifically:

- (a) the amount per tonne will increase only with inflation, as defined in the Environmental Protection (Waste Recycling) Regulations, effective from 1 April 2006;
- (b) the amount per tonne will be standardised across all WCAs to equal the average disposal cost in Oxfordshire, effective from 1 April 2007.

REVENUE – ARRANGEMENTS FROM 1 APRIL 2009

9. For each year from 2009/10 there will be a countywide target for the maximum amount of residual waste to be landfilled. This will be calculated to meet overall diversion targets, LAA targets and any other targets agreed by OWP.
10. The countywide target will be split between OCC and the WCAs calculated from the percentage of waste collected in 2005/06.
11. The WCA target will be divided between the WCAs based on the number of households in each.
12. Within the overall waste target calculated in paragraph 9 will be a target for the maximum amount of BMW included in residual waste. This will be calculated to meet the LATS target in each year (or interpolated between target years). It may include a safety margin agreed by OWP.
13. Each WCA and OCC will have a maximum target for BMW calculated in the same way as the overall target. Each WCA will therefore have a target maximum tonnage for BMW and, by deduction, a target maximum tonnage for non-BMW.
14. Each WCA will receive:
 - (a) a payment for each tonne of BMW below its target, at a rate of 100% of the LATS penalty per tonne;
 - (b) a payment for each tonne of non-BMW below its target, at a rate calculated in accordance with the method used for recycling credits.
15. Conversely, each WCA will pay:
 - (a) a payment for each tonne of BMW above its target, at a rate of 100% of the LATS penalty per tonne;
 - (b) a payment for each tonne of non-BMW above its target, at a rate calculated in accordance with the method used for recycling credits.
16. Prior to 1 October 2007 the Partner Authorities may agree to vary the percentages and amounts per tonne in paragraphs 14 and 15, providing the result is consistent with the objectives set out in paragraph 5.

17. The recycling credits paid in 2008/09 will be pooled for 2009/10. They will be cash limited from 2009/10 onwards and will be distributed to WCAs as an amount per household. These payments will be adjusted by the amounts calculated in paragraphs 14 and 15.

NEW INITIATIVES FUND

18. OCC will create a fund to help meet the capital or one-off costs of waste management initiatives. These would be new initiatives designed to meet OJMWS objectives, and in particular minimise residual waste requiring landfill or further treatment.
19. The Partner Authorities agree to pay into this fund the reward grant that is due to them from achievement of the PSA1 wastes target, and any reward grant that becomes payable to them for achievement of the LAA stretch target on non biodegradable municipal wastes.
